During the spring semester, Rivier developed a new clinical psychology laboratory. The lab offers a room for psychological testing and assessment with a one-way observation mirror. Kathleen Holland '09, a student in Rivier's five-year combined bachelor's/master's program, says she was excited to have the opportunity to perform interviews in the lab under supervision.

Dr. Alan Goodman**, Assistant Professor of Psychology, says that the lab is a resource for students in the five-year program as well as those in Rivier's recently launched psychology master's programs. “We have an opportunity to become the premier clinical psychology graduate program in southern New Hampshire,” he says. Experience in the lab is an important component of the graduate programs, which have been designed to give students the background they need to become competitive for doctoral programs. ■

* **JENNIFER LISKOW** is Rivier's Assistant Director of Marketing and Communications and teaches in the College's Professional Communications program. Jennifer earned her bachelor's in English and communications from Notre Dame College in Manchester, N.H. in 1996. In 2002, she completed her master's in writing and literature at Rivier. She began writing in junior high school; since then, she has had poems, short stories, features and essays published. She serves on the Board of Directors for NH Roller Derby, the state's first competitive flat-track roller derby league.

** **Dr. H. ALAN GOODMAN** is an Assistant Professor of Psychology and Director of the Graduate Program in Clinical Psychology at Rivier College. He has a Bachelor's degree from California State University, a Master's Degree from the University of the Incarnate Word, and a Ph.D. from St Mary's University, and he is all but dissertation in a second Ph.D. in General/Experimental Psychology from Tufts University.
