

## NURSING STUDENTS GO GLOBAL

(From *Rivier Today*, Spring 2018)

**N**ursing faculty and students traveled to Costa Rica for alternative spring-2018 break, investing their time and talent in a clinical and cultural immersion trip. **Dr. Marilyn Daley** and adjunct instructor **Jennifer Thompson** led a 16-student team to remote areas of the island where they conducted home visits and treated acute care patients in field clinics they established in La Carpio, San Jose, and Caro Quintero, Alajuela. Scarce medical supplies and equipment presented several challenges; however, the team provided care for more than 50 patients during their stay. ■
