# DEEPA RANI GABADARI '14G,
Software Programmer, Remote Tiger, Greenbelt, MD

(From *Rivier Today*, Spring 2018)

Alumni Spotlight

Deepa Rani Gabadari, Class of 2014, works at Remote Tiger as a software programmer in Greenbelt, Maryland. As an international student, she fondly remembers three things about Rivier—a professional education, great peers and great teachers. She felt that Rivier gave her many opportunities to prepare for life in the real world through class projects and on-campus employment. She is thankful to Dey Barriga and Sister Martha Villenveuve, pm for their help while she was a student in the M.S./Computer Science program at Rivier University. ∎
