

GLOBAL HEALTH PROFESSIONS CULTURAL IMMERSION TRIP TO BELIZE (MARCH 3-10, 2019)

(From *Rivier's News*, April 13, 2018)

BELIZE

Office of Global Engagement Faculty-Led Teaching Trip

Global Health Professions Cultural Immersion

Faculty Leaders: Dr. Marilyn Daley, Jennifer Thompson, and Dr. Susan Barbaro

Belize is a small, Latin American country whose coastline borders the Caribbean Sea. The island faces major public health challenges related to a lack access to health education and medical services. Students will experience Belizean culture, participate in a variety of general medicine, nursing, and pharmacy experiences, as well as examination of local soil and water for community education on potential health risks, and gain a firsthand perspective on global public health issues.

March 3-10, 2019
