

KINDER CARE AT RIVIER UNIVERSITY TO OPEN IN JANUARY

(From Rivier Today, Fall 2020)

Rivier has entered an agreement with KinderCare Education to lease and operate the early childhood center previously managed by the University. KinderCare at Rivier University will care for and educate infants through pre-K children with operating hours that align to working families' schedules. The center is prepared to enroll students upon receipt of their license by the State of New Hampshire.

"The University welcomes KinderCare Education," says **Sister Paula Marie Buley, IHM**. "We appreciate the valuable resources KinderCare will provide to the Greater Nashua community and their strong support for early childhood education."

Enrollment information is available at www.KinderCare.com/rivier. ■
