

## **\$295K DEPARTMENT OF JUSTICE GRANT EXPANDS PROJECT CARE**

*(From Rivier Today, Fall 2020)*

Colleges and universities across the nation are making it a priority to educate students about issues of stalking, domestic and dating violence, and sexual assault. A recent \$295,000 Department of Justice grant will allow Rivier to continue its investment in education for these important topics through Project CARE—Campus Awareness for Raiders to End Issues of Sexual Assault, Domestic Violence, Dating Violence & Stalking.

The grant will fund Rivier’s Project CARE Director position; expansion of education initiatives related to gender-based violence; an expanded partnership with Bridges, Nashua’s domestic and sexual violence support advocate; and ongoing efforts to increase awareness on campus.

The University congratulates the CARE Task Force, headed by Vice President for Student Affairs **Kurt Stimeling**, for its efforts in obtaining this grant and advancing the University’s mission to engage in dialog about basic human issues facing society. ■
