

## CEREMONY CELEBRATES THE REIMAGINING OF SYLVIA TROTTIER HALL

(From *Rivier Today*, Fall 2022)

The University celebrated the complete renovation of Sylvia Trottier Hall with a Ribbon Cutting Ceremony in September 2022. Local dignitaries, benefactors, Trustees, and the Rivier campus community attended the event, which unveiled new nursing, business, and information technology spaces.

Sylvia Trottier Hall was reimagined through the creation of modern learning spaces, state-of-the-art nursing simulation resources, and advanced technologies. Renovations to the 30,000-square-foot building began in the summer of 2021. The Nursing Simulation and Clinical Education Center opened in spring 2022, and students were welcomed into the new Business and Security Studies facilities and the University's Tech Hub this fall.

**Sister Paula Marie Buley, IHM** recognized the visionary \$1 million donation that launched the Nursing Simulation and Clinical Education Center as well as leadership gifts from members of the Board of Trustees that supported the Business and Security Studies renovation (see “*Technology and Innovation*” article in this Journal Edition).

Dean of Nursing and Health Professions **Dr. Paula Williams** and Dean of Business and Security Studies **Dr. Amir Toosi** spoke on behalf of their divisions. **Sister Helene Cote, pm**, Provincial Superior of the Sisters of the Presentation of Mary, offered an invocation and blessing, and City of Nashua Mayor **Jim Donchess** recognized the University as a valuable community resource while expressing pride in Rivier as the city’s leading educational institution. ■
