

## **ALUMNI SPOTLIGHT: HAMID HABIBI '15G**

*(From Rivier Today, Spring 2024)*

*Hamid Habibi '15G, Manager of Conversational Artificial Intelligence at Deloitte in New York City*

### **DRIVING BUSINESS SUCCESS THROUGH AI INNOVATION**

Hamid Habibi '15G is the Manager of Conversational Artificial Intelligence at Deloitte, one of the world's largest providers of audit, consulting, financial advisory, risk management, and tax services. Hamid spearheads projects in generative and conversational AI and leads teams to deliver innovative AI solutions for the company's clients. His work with Conversational AI involves using voice or text to understand questions and requests, creating new content, and then providing a response that sounds natural and engaging, like a chat with a friend or colleague.

He believes the potential for AI is vast. "I see AI weaving deeper into the fabric of our lives. We'll collaborate to create remarkable art, tailor personalized experiences from education to healthcare, and perhaps even tackle some of humanity's greatest challenges."

***Education:*** *Computer Engineering, Azad University of Zanjan; M.S. Computer Science, Rivier University.* ■
